THE FASTING PODCAST WOW: EPISODE 94 – “HEAL Y”ourself with HEALY

Testimonial (Healy Resonance): Dr. Radhikesh, MD (Internal Medicine)

- “My father-in-law has diabetes. His sugar is always 400, his last A1c was 12.2, which is terrible. He tries to control his diet. He is on multiple medications for this. Despite trying to follow a diet and doing as much as he is able to do, it was not coming under control. He used the Healy Spleen/Pancreas scan one day. The next day his sugar was 200, the day after it’s 180. That’s not possible with any of the treatments that are out there to have that significant of a drop and he didn’t change anything else. It was quite remarkable. On a personal level, I’ve had shoulder problems for 10 years and have tried everything to fix it short of surgery and it was just kind of status quo, not getting better. I did 2 treatments with the Healy and it’s gone. I was actually amazed at how that works. I’ve had people use it for their sleep issues and literally in a day or 2, they say they feel much better. One person told me I’ve never slept in my life until I used this machine. When you hear that over and over again from people that you know and you know their issues, it’s hard to speak out against clinical success.
- The entire body is made up of frequencies that can help heal things that western medicine cannot.
- So far, I’d say actually every person that I’ve talked to that has been using it has been incredibly happy with the results and usually within a couple of days.
- I want to say how fortunate all of us are to be involved with this type of technology. This is something that as time goes on, is going to be seen to be pivotal in really healing people at the deepest level and letting them live their life to the most maximum potential. Every single one of us... has such a potential to do so much with our lives and this machine is going to help us remove so many levels that are holding us back.” Full video with Q&A: <https://vimeo.com/473164141>
